New data pools in the GDSN

GDSN welcomes three new data pools

GDSN is pleased to announce that **Edicom**, **GS1 Portugal** and **SKB Kontur** have successfully completed GDSN data pool certification, bringing the total number of GDSN certified data pools to 30. The new data pools will be offering solutions compliant with GS1 GDSN Standards Business Message Standard version 2.7. The certification tests were performed using the GS1 GDSN Test Data Pool Kato™ and facilitated by the Drummond Group Inc, a leading interoperability and conformance testing company.

Edicom

Edicom is a world leader for development and implementation of technological platforms for e-commerce B2B solutions, like Electronic Data Interchange (EDI) or Invoicing.

More than 100 million commercial transactions worldwide are transmitted annually with Edicom's Solutions, optimising integration of key commercial information between companies of industries like Retail, Health, Automotive or Tourism. Around 30% of these transactions are electronic invoices adapted to the legal and technical specifications of countries like Spain, Mexico, Brazil, Argentina, Chile.

GS1 Portugal

GS1 Portugal, a GS1 Member Organisation, is committed to helping its members participate in global eCommerce initiatives using GS1 System Standards. GS1 Portugal offers training and education, Measurement services, Product inspections, Data capture, Consulting services, Implementation services, and Data comparisons services to support its growing membership base. www.gs1pt.org

SKB Kontur

SKB Kontur is a Russian software company founded back in 1988. With 1000+ staff employees they offer solutions to solve most challenging software and business development tasks. Their goal is to reduce paperwork that each Russian business is using in its everyday routine. They have created 11 significant software products in the last 20+ years. SKB Kontur is working to enable Russia to become a country where businesses do not need to deal with paper. www.skbkontur.ru/eng
