

GDSN Hierarchical Withdrawal Notification Work Group

Date: 13-Nov-2008

CR: 07-434

This is a GSMP **Call-to-Action** to recruit users from all industries and from everywhere in the world to bring their expertise, commitment, and contribution to a new GSMP work area.

The information herein gives a general description of the new work area and the **GDSN Hierarchical Withdrawal Notification Work Group (WG)** that is being formed to accomplish the work. For information on how to join this work area, please refer to Section 12 below.

1. Objective/Scope of the GDSN Hierarchical Withdrawal Notification Work Group WG

Define Business requirements around GDSN Hierarchical Withdrawal Notification process, and then create a Business Message Solution (BMS) composed of a Business Solution Design (BSD) which then is used to create a Technical Solution Design (TSD):

Proposed BCD Objective:

- The network would authorize GSMP to model a document that would facilitate the minimal population of data to communicate a Publication Delete.

Mandatory:

- Information Provider GLN[1..1],
- Target Market[1...1]
- GTIN[1..1] ←Published Node GTIN
- Data Recipient[1...1]
- Reason Code/Description???
- GPC [1...1]

Optional:

- GTIN[0...*] ← Listing of GTINS contained inside of withdrawn hierarchy.

Scope from BCD

- What is needed to implement this new functionality?

Impact Analysis

- Current BMS Standards, i.e., Choreography
- Current Business Practices would not be affected
 - It is an existing message type
- A way for a GDSN CIN to be populated with the Command State of DELETE, without item attributes.
- Recommendation for a DELETE – GTIN Message WG post implementation
 - Process Working Group
 - Implementation Working Group

2. Scope Constraints of the GDSN Hierarchical Withdrawal Notification Work Group WG

GSMP WG must adhere to the GS1 Standards Development Methodologies to assure their scope and deliverables, upon which the work of the other GSMP groups depends.

Generally, the team must operate within the following context:

- Develop documents that capture the business and technical requirements
- Develop documents that capture the additional considerations and concerns that were discussed during the group's calls and physical meetings.

This work effort is based off of Change Request: **07-434**

3. Expertise Required

This is a call for business information and business information technology experts for the GDSN Hierarchical Withdrawal Notification. The experts should represent trading partners from both sides of the trading relationship, data pools, third parties and solution providers to have proper representation on the WG. The intent is to have balanced membership from the GDSN Hierarchical Withdrawal Notification user community to define and establish proper global standards with the clear intention of implementation of these

4. Area Affected

- GDSN BRG owns this Call-to-Action and is the user community affected by this CR.

5. Distribution for Call to Action

Please circulate this **Call to Action** packet by forwarding it to your email distribution lists. GSMP WGs are open to broad participation from any industry group, company, or region. All '**Call to Action**' packets are posted in the GS1 website at:
