1. Business Domain View

1.1. Problem Statement / Business Need

There is a need in the office supplies industry to exchange information on trade items. When most of the requirements are already covered in the Data Alignment messages, some specific requirements still have to be addressed.

This extension covers all office supplies industry requirements described in the BRAD Data Alignment for Office Supplies. This document covers all the items needed to work in an office.

The following categories of trade items are concerned:

- Paper and anything related to paper (writing instruments, glue, staplers, etc.)
- Office furniture (desks, cupboards, lamps, etc.)
- Computers, peripherals and consumables (printers, toner, mice, etc.).
- Communication trade items (telephones, faxes, etc.).

1.2. Objective

The creation of a new extension including attributes and code list values already existing in the hard lines model as well as the needs of the office supplies industry.

1.3. Audience

The audience of the standards would be any participant in the global supply chain. This would include retailers, manufacturers, service providers and other third parties.

5.3. Class Diagrams

Note: The relationship between the extension and the Trading Partner Neutral Trade Item Information class is logical only and does not designate the physical location of the extension tag in the Schema. This relationship states that, logically, the information contained in the extension belongs with other Trading Partner Neutral Trade Item Information such as packaging marking and item dimensions. The physical placement of the extension tag is a technical decision as long as it allows the implementers to relate the extensions to a specific trade item.

Note: The following deprecated attributes have been replaced by attributes/associations in the Core Trade Item. These deprecated attributes will remain in the schema until a major release when they will be removed.

Deprecated Attribute/Association	Replacement in Core Item
Nesting Information	Nesting Increment
Out Of Box Information	Trade Item Display Dimensions

5.4. Code Lists

Code List Name	Code List Description
Right Of Return For Non Sold Trade Item Code List	
CALL_FOR_AUTHORIZATION	A call to a trading partner is required to obtain authorization to disposition defective, damaged, or otherwise non-saleable goods.
DESTROY_FOR_CREDIT	Trading partner documents and subsequently destroys defective, damaged, or otherwise non-saleable goods and is issued a credit for the material by the other trading partner.
DESTROY_NO_CREDIT	Indicates that in case a product is damaged, defective, or not-sellable it can be returned to the supplier. The supplier will then destroy the item and doesn't give the consumer any money back (i.e.: an old copier).
FULL	The manufacturer has indicated the return policy can be for a full shipment of the merchandise received by the retailer.
HOLD_FOR_INSPECTION	Defective, damaged, or otherwise non-saleable goods are held for inspection and verification by a trading partner prior to the issuance of credit for the material.
NO_POLICY	There is no effective policy regarding the disposal of defective, damage and non-saleable goods
PARTIAL	The manufacturer has indicated the return policy can only be for a partial shipment of the merchandise received by the retailer.
RETURN_FOR_CREDIT	Defective, damaged, or otherwise non-saleable goods are physically returned by a trading partner prior to the issuance of credit for the material.
