## 1 Introduction

At the launch of the new global website [www.gs1.org](http://www.gs1.org) in February 2015, it has not been possible to fully automate the [log of recent standard changes](#) on the public website as some very minor changes (e.g., errata) would be listed. Therefore, this detailed posting-log below is maintained to provide 100% transparency in the posting of GS1 standards, guidelines and other significant GSMP documents in addition to the high-level summary provided on <http://www.gs1.org/standards/log>

## 2 Recent Standards Updates

The log below records the most recent updates and releases to standards and guidelines.

Prior to February 2015, the log was taken from the 'recent updates' section of the Knowledge Centre on the former [www.gs1.org](http://www.gs1.org) website and all redirect links should work.

**Table 2-1** Summary table with date of posting

| Posting date         | Sector / Product / Solution | Publication                                                                                                                                                                                                                                                                               | Update / new                                        |
