Welcome to Australia!

21st GS1 Healthcare Conference

Sydney, Australia
20-22 March 2012
Australia – Some background

- Australia was settled by Europeans in 1788
- 1 in 4 Australians were born overseas
- Australians invented aspirin (1915), the pacemaker (1926), penicillin (1940), the plastic disposable syringe (1949), the bionic ear (1978) and long-wearing contact lenses (1999).
- Australia’s coastline stretches almost 50,000 kilometres more than any other country in the world.

Our gift to you…the Boomerang

- Oldest Australian Aboriginal boomerangs are 10,000 yrs old
- 7 different types of boomerangs
- Used for hunting of birds (returning boomerang); kangaroo and emu (non-returning boomerang)
- Today, mostly used as sporting items
Conference Location
Doltone House, Darling Island Wharf, Sydney
Welcome from New South Wales Health
Did you know…

• Australian Healthcare uses GS1 Australia’s GDSN compliant data pool.
  • Australia’s data synchronisation effort is unique in that it caters for procurement information, clinical data, and customer specific pricing.

• GS1 XML is the eMessaging format selected by Australian Healthcare.
  • GDSN has a foundational role in eProcurement implementation.

• Conference attendees will have an opportunity to understand the business drivers and benefits of GDSN and GS1 XML in Healthcare.
Welcome from Health Purchasing Victoria
