17-19 November 2020
GS1 Healthcare Online Summit
Global Standards for Global Health

Session 1 – Anticipating the worldwide impact of regulatory developments
Most of the regulations affecting device identification or pharmaceutical traceability are based on the use of global standards or harmonization. These regulatory developments are very important and national authorities and stakeholders need to be aware of regulatory requirements around the world. This session will provide an overview of ongoing regulatory developments and help participants become aware of key elements of these developments.

Start | AEDT 7pm | EST 9am | CET 5pm
End | AEDT 7pm | EST 9am | CET 5pm

Speaker 1 | Mehdi B. Shokri, Director General, Pharmaceutical Licensing & Control Organization, Iran

Session 2 – The need for alignment on a global framework
Harmonized implementation of regulatory requirements using global standards for pharmaceutical traceability and medical device identification is critical to the success of the global healthcare supply chain. This session will discuss the gaps and the need for regulatory harmonization.

Start | AEDT 5pm | EST 9am | CET 5pm
End | AEDT 5pm | EST 9am | CET 5pm

Speaker 2 | Dr. Susan Moffatt-Bruce, Chief Program Officer, Australian Government Department of Health, Australia

Session 3 – Learning from a crisis to transform the future of healthcare
Similar to every crisis we have seen before, the COVID-19 pandemic is driving innovations and new processes for the management of healthcare. Health authorities are implementing new processes for the management of healthcare, such as contact tracing and mass vaccination, and exploring how these processes can be upscaled and sustained beyond the current crisis. This session will discuss how the pandemic has opened opportunities to improve healthcare processes and systems, and how these processes can be scaled up to improve healthcare systems and patient safety.

Start | AEDT 7pm | EST 9am | CET 5pm
End | AEDT 7pm | EST 9am | CET 5pm

Speaker 3 | Scott Monture, Vice President of National Indigenous Health, Alberta Health Services, Canada
