

# Speaker Information

## Benefits of Speaking

Presenting at the *GS1 Healthcare Online Summit* is an opportunity to feature what healthcare stakeholders around the globe are doing to move the needle forward in their use of global standards to drive supply chain efficiency and help improve patient safety. Now more than ever, the need for global standards in healthcare is crystal clear.

In addition,

- Speakers receive a full, complimentary, and non-transferable event registration.
- Speakers have the opportunity to present on a global stage.
- Speakers gain visibility and exposure to attendees from across the global healthcare ecosystem.

## Suggested Topics

The list below highlights topics and ideas for session proposals. This is not an exhaustive list, and presentation suggestions focusing on other topics are always welcome.

- Healthcare supply chain including global access to safe healthcare products, building supply chain resilience, managing supply shortages, and COVID-19 supply chain considerations.
- Patient safety in any healthcare environment, including how technology & standards are helping to reinforce the safety of staff & patients.
- The regulators' role in the deployment of global standards.
- Resilience through disruption - challenges and learnings.
- How GS1 standards support multiple functions (e.g., operational excellence, clinical and financial performance, and regulatory compliance).
- How global standards can address both local and global needs.

## Timeline

- Speaker nominations close 31 July 2021. All submissions will be reviewed by the Event Committee and those selected will be contacted via email by the end of August.
