Our Mission

To lead the healthcare sector to the successful development and implementation of global standards by bringing together experts in healthcare to enhance patient safety and supply chain efficiencies.
Development & Implementation

- **AIDC Application Standards**
  - GTIN Allocation Rules for Healthcare ratified
  - Data & Carriers: business requirements defined
  - Serialisation: serial & lot number size and capacity identified
  - Work team finalising first AIDC Application Standards

- **Traceability in Healthcare**
  - Pedigree Messaging Standard ratified
  - Work team established for Global Traceability Standard in Healthcare

- **Data Synchronisation & Product Classification**
  - GDSN standards gap analysis: majority of healthcare needs are supported by the current standard
  - Global GDSN Proof-of-Concept pilot planned in 2008
  - Product Classification deployment strategy completed
