CHeS Mission Statement

• The mission of the Committee for Healthcare eStandards (CHeS) is to provide leadership to the healthcare industry by improving accuracy, efficiency, and safety through the application of standards in the healthcare supply chain.

CHeS Vision

• The vision of CHeS is to accelerate the adoption, implementation and active usage of industry-wide data standards for improving the efficiencies throughout the healthcare supply chain.
GOALS

In support of the CHSeS mission and vision, the Committee focuses on the following goals:

• Serve as one **united GPO voice** on matters of healthcare supply chain standards and process improvements.

• Provide an open and neutral forum for **industry-wide collaborative approach** for healthcare supply chain participants.

• Endorse GS1 Healthcare standards to help **accelerate industry-wide deployment** of the standards and associated processes throughout the healthcare supply chain.

• Develop and recommend **best practices** where industry-wide standards could improve efficiencies throughout the healthcare supply chain.

• Define and lead in the development of **new standards** where existing standards or their absence are not meeting industry needs.

Industry Progress

Successes
- GPO’s have endorsed Sunrise Dates
- Associations also endorsed Sunrise dates
- FDA Mandate is critical
- Hospital adoption is key

Challenges
- Overall pace continues to move too slow
- Separate initiatives in the US and Globally
