

Optimising the Warehouse

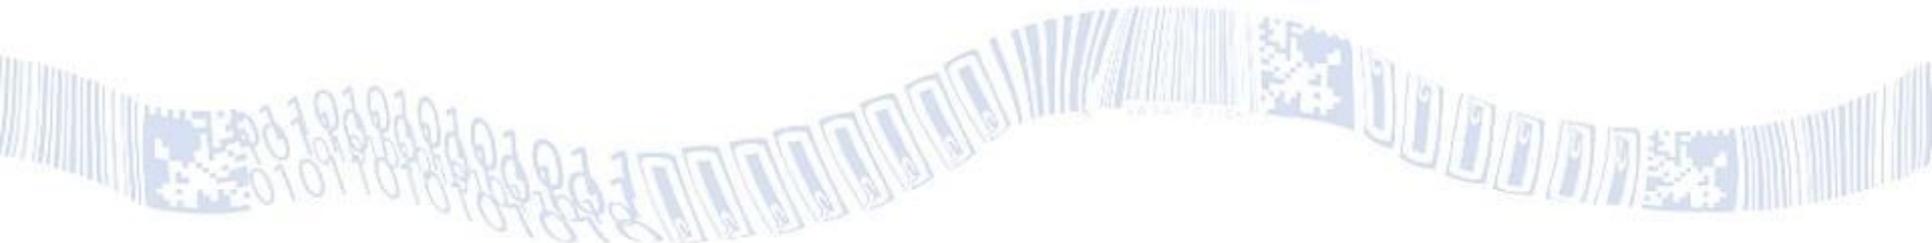

Ged Halstead
Chief Information
Officer at CH2

Introduction

- Key Metrics
- About CH2
- About our implementations
- How we have approached optimisation in a GS1 world
- *Some Words of Wisdom*
- *Enjoy the Journey – Qantas*
- *Every individual has the power to change the world we live in - Earth Hour*
March 31st at 8.30pm
- *Raising the bar on patient safety and supply chain efficiency – GS1 Healthcare*

Benefits for CH2 in adopting a standards based approach

- Inventory Accuracy Better than 97%
- Pick accuracy 99.98%
- Fill Rates close to 97%
- 99.89% Pricing accuracy
- Reduction in working capital
- Measure everything – in a position to share these metrics
- Order consolidation and highly evolved transportation management
- Lot Control is actually happening in the wholesaler space
- Playing an active role in participating with supply and demand partners to increase automation, data capture, visibility and standards adoption

CH2 - Our History

- VHA commenced in 1938
- Clifford Hallam Pharmaceuticals (CHP) 1973
- In 1997 VHA became Hospital Supplies Australia (HSA) and implement JDE One World in 2000
- In 2001 API purchased HSA
- In 2005 backed by Private Equity, CHP was merged with HSA and Clifford Hallam Healthcare was formed aka **CH2**
- 2008 CH2 purchased Cottman Australia
- 2010 CH2 acquired Intouch

Today

CH2 is the largest Healthcare supplier in Australia offering a broad range of Pharmaceutical, Medical and Equipment supplies to Hospitals, Primary Care and Allied Health

GREAT SERVICE, EVEN BETTER PRICES

CH2 Sites in Australia

CH2 Transaction Profile

More than 45,000 customers, including;

- 739 Public Hospitals
 - 289 Private Hospitals
 - 268 Day Surgeries
 - Medical Centres and GP's
-
- 25,000 plus active SKU's
 - 320,000 lines delivered per month
 - Pick, pack and ship over 3 million units per month
 - Order fill rates consistently above 96%.
 - DIFOT target is 95%
 - Over 40,000 orders per month of which 74% customer orders via an EDI Channel
 - Projected revenues around \$800m in 2012

Supplier Engagement

E Commerce

- 26 Suppliers trading live with CH2
- Another 27 in either Test or Development Mode

NPC

- 66 suppliers publishing to NPC

This is off a Zero base 5 Years ago

CH2

Our Model

Our IT Platform

- JD Edwards Enterprise One 8.11
- Virtualised on VMWare
- IBM X series, EMC SAN
- DSI's DC Link for Radio Frequency (RF)
- Intermec and Datalogic hand held units
- SAP Business Objects for Business Intelligence
- MS SQL Server 2000 and 2005 database
- Oracle on demand for CRM
- Gains for procurement planning
- IBM's Optim for archiving
- Pacific Commerce's Boulevard for Product Information Management
- IBM Websphere Commerce, Websphere enterprise Services Bus and Sterling Integrator

IT Integration & Connectivity

- SOS – Simple Ordering System
 - Client based real time integrated and standalone ordering
 - Integrated to I Soft, Merlin, IBA and Fred
- CH2 Direct
 - Easy to use web based
- B2B (NEHTA E Procurement)
 - Full EDI suite via VAN and sFTP or Pharmx –Retail
 - SSCC Labeling
- Supplier enabled interconnections
 - HEN patient registrations and ordering
 - SCA TCMS interfaced
- **CH2 Gateway** (winner of SAP Best BI 2011)

How we use JD Edwards at CH2

- We are running
 - Financials
 - Distribution
 - Advanced Pricing
 - Manufacturing and Planning components
- We are not running
 - Advanced Warehousing
 - JDE Advanced Transportation
- We use middleware to fill in the gaps for
 - Warehousing
 - Order Consolidation & Transportation
 - Carton label Printing
 - Consolidated Packing

Our Journey

Get Ready

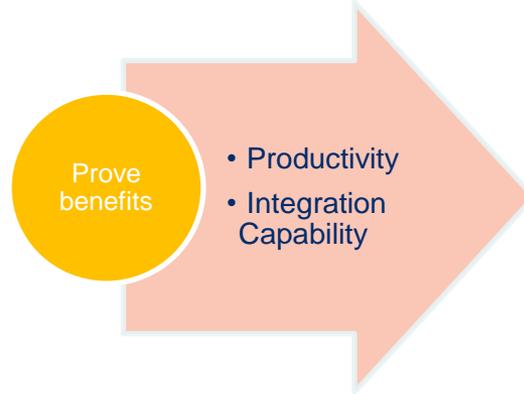

Optimise ERP

Implement Radio Frequency

Cleanse Data

**Use GTIN's
(Ordering, Procurement & Operationally)**

Lay Foundations to use NPC

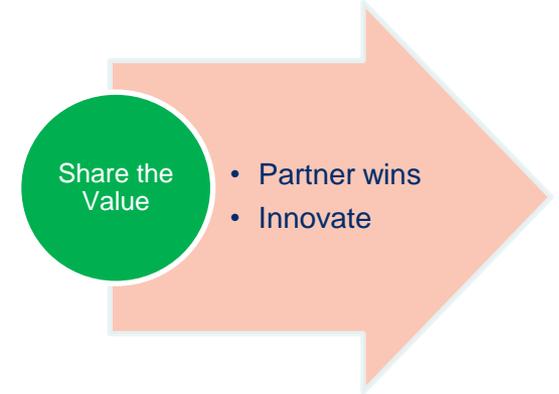

Get Set

Optimise WMS

Improve Interoperability for partners

Introduce NEHTA E Procurement for Suppliers

Start using NPC

Get Going

NEHTA E Procurement for Customers

All EDI data exchanged based on NPC data

Scoring Supplier performance

Share the data (Gateway Portal)

Prepare for the changing landscape for Pharmaceutical traceability and Unique Device Identification

Optimising the Warehouse

Our History

- Commenced the RF project with base case ROI on the basic scripts in 2007
- Base case grew from 7 scripts to 55 scripts within 18 months
- Introduced order consolidation then advanced transportation
- Introduced selected customers with Carton level SSCC

Today

- Working on picking directly with carton based SSCC
- Introduction of Pack benches where every customer will get carton level SSCC
- Refining our electronic manifests to be standards based so that more transportation companies can read and use our labels

Learnings

Change

- Needs Leadership, culture and sponsorship

Listen

- The best ideas are given freely

Lead

- Not everyone wants to 'rock the boat' Be courageous Not crazy

Test

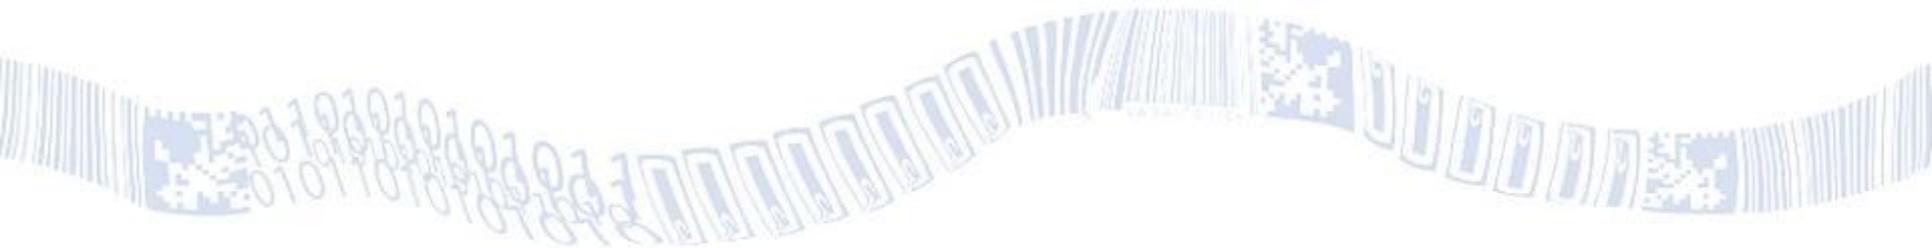

- Implementing GS1 systems is done in a real world and affects your partners. Make sure its Right!

Data at CH2

- You can only improve what you can measure
- We Measure just about Everything
- Our data quality had to improve
- Our data collection had to improve

Clifford Hallam Healthcare
