How to communicate business procedures in a standard way

Anna Gawrońska – Błaszczyk
Grzegorz Sokołowski

GS1 Standards Event 2015, Warsaw
What is BMPN?

- BPMN 2.0 (*Business Process Modelling Notation*) is currently most popular tool used for business process description, possible to be used in any industry.
What we do during the analysing

- Meeting with management team,
- Visiting a company for better understanding of realized processes,
- Drawing a general process,
- Meeting with operational people,
- Drawing an operational map of the process „AS IS”,
- Parameterizing of the process and finding bottlenecks,
- Developing of a „TO BE” map including recommendations and agreed changes,
- Simulating of a „TO BE” map and presenting it to a customer,
- We provide processes via the Internet and let the company shape the process.
# BPMN in projects realized by GS1 Poland

<table>
<thead>
<tr>
<th>Healthcare</th>
<th>Retail</th>
<th>TSL</th>
</tr>
</thead>
<tbody>
<tr>
<td>• GS1 logistics label in a wholesaler</td>
<td>• Use of GS1 logistics label</td>
<td>• Use of GS1 logistics label &amp; EDI standard messages</td>
</tr>
<tr>
<td>• GS1 standards in recall process</td>
<td></td>
<td></td>
</tr>
<tr>
<td>• GS1 standards in hospital logistics</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Process-oriented traceability audit - compliance with traceability requirements**
Reception process – AS IS
Reception process – TO BE
Film – simulation

Film
Reports – KPIs

Numbers of pallets

Average service time of delivery

Percentage time utilization of employee

Average cost of delivery service
Summary

✓ BPMN standard is a very useful tool for GS1 consultancy,
✓ BPMN makes it possible to estimate benefits (ROI) from the implementation of GS1 standards...

...and also this tool:
- Is easy to understand for everybody regardless of industry,
- Is easy to be used to discover „best practices“,
- Is a user-friendly way of process description, enabling interactive discussion,
- Is used to simulate results of process changes,
- Makes it possible to develop good relations with the company.
Thank you for your attention!
