Project Description
This group will define and develop a revised version of the Low Level Reader Protocol (LLRP) Standard to clarify its use within the RFID community, identify and add new features needed to align with the Gen2V2 Air Interface standard while ensuring new features do not cause any disruption—and that the revised version of LLRP is backward-compatible with existing deployments. Any additional functionality not currently included in the Gen2V2 standard is considered out of scope of this project.

Deliverable/Objective
- Develop a revised version of the LLRP Standard to include the updated Gen2V2 standard.
- The group may identify guidance and training material to support the RFID community when implementing LLRP-based solutions.

Stakeholders

- Sponsor: Robert Beideman (not an OGSM)
- SDL: John Ryu
- CE/Sol Liaison: Claude Tetelin
- SME: Claude Tetelin
- AG Liaison: Amber Walls (GS1 US)
- Chairs: Michael Koch (Zebra), Thomas J. Frederick (Clairvoyant Technology LLC)

Legend
- G: On schedule
- Y: Minor Risk/≈10% behind schedule
- R: Significant risk/10%+ behind schedule
- C: Complete

Milestone deliverables
1. Project approved August ‘19
2. Requirements February ‘20
4. Collateral Development Publication February 2021 *

Completed last 30 days
- Congratulations Ratification LLRP 2.0 Solution
- Completed eBallot
- Completed IP Review

Next steps
- LLRP Publication
- Communication campaign with marketing
- Discuss collateral development
- Discuss conformance requirement

Risks and Issues

- Project approved August ‘19
- Requirements February ‘20
- Development Original September ‘20 – Revised January 2021
- Collateral Development Publication February 2021 *
