 - GDSN Healthcare pilot success story
 - Product classification
- New data requirements:
 - GDSN Extension review and resolution of many open action items
- Conference call to update global work group, Monday, 3 November

Traceability in Healthcare Work team wrap-up

Healthcare What we have achieved

- Update the participants on our previous work :
 - Phase 1 resulted in two Change Requests submitted into GSMP :
 - Generic/sector agnostic GTS
 - Healthcare specific GTS : Healthcare wording and examples
 - Phase 2 : Business Implementation Guidelines for Healthcare
 - Introduction and draft structure
- Brainstorm with two groups looking at :
 - Dispenser side
 - Institutional provider side
- Capture the input from the participants and began including it in the document in progress
