Risks / issues / Highlights

- EDI XML Maintenance Release 3.4, including FIT EDI part, has been successfully ratified and the document is being updated for publication.
- There are no changes to the EANCOM standard at this time.

Group Scope

GS1 EDI SMG provides global standards for electronic business messaging that allows rapid, efficient and accurate automatic electronic transmission of agreed business data between trading partners. GS1 EDI standards are widely used globally and are a key component of the GS1 System. This group will process all maintenance work requests for the EDI Standards.
