Resources

Standards Development Process Resources

[Introduction to the Global Standards Management Process \(GSMP\) video](#) – this video is a high level overview of the process of standards development

Standards Development Process Resources

- [Standards Development Website](#)
- [GSMP Manual](#) – this manual provides all the guidelines we must follow to properly develop standards

Work Group information

Why join a GS1 work group? Click [here](#) to find out.

There are two types of GSMP work groups:

- 1. Standards Maintenance Group (SMG)** – improve existing standards
 - **Electronic Data Interchange (EDI)** – led by [Jean Luc Champion](#), GS1
 - **Global Master Data (GMD)** – led by [Justin Childs](#), GS1
 - **Global Product Classification (GPC)** – led by [Jeanette McVeigh](#), GS1
 - **Identification (ID)** – led by [John Ryu](#), GS1
 - **Traceability & Event Sharing (TES)** – led by [John Ryu](#), GS1

Work Group information, continued

- 2. Mission Specific Work Groups (MSWG) – develop new standards**
- **Consumer Product Variant in the Global Data Synchronisation Network (GDSN)** – led by [Greg Rowe](#), GS1
 - **High-Speed Barcode Printing (HSBP)** – led by [John Ryu](#), GS1
 - **Mobile Ready Hero Images (MRHI)** – led by [Jean-Luc Champion](#), GS1
 - **Uniform Resource Identifier (URI)** – led by [Greg Rowe](#), GS1

Industry Groups

Industry groups exist to bring clear business needs to the standards development process and to ensure implementation of GS1 standards

- Apparel
- Digital
- Healthcare
- Retail
- Transport & Logistics

Tools

Community Room

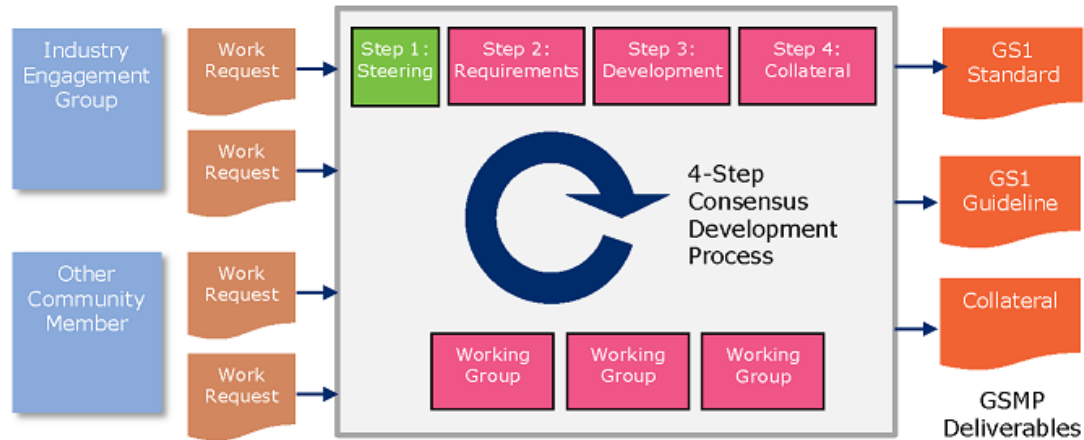

The Community Room is a central location for collaboration and sharing for all GSMP and Industry groups. It is located inside the **GS1 Xchange** portal.

For information on how to access and log into **Xchange**, [click here](#).

For a training video on how to navigate through **Community Room**, [click here](#).

Work Request System

The [GS1 Work Request System \(WRS\)](#) is the entry point into the Global Standards Management Process (GSMP). Work Requests (WR) are submitted by the community to identify business needs that require standard-based solutions to improve efficiency, safety, security and or sustainability throughout the supply chain.

News & Events

GSMP Communication

'Standards news' is how we communicate the weeks activity of all groups and standards developed. Summary of all open ballots and community reviews are included for community consideration. **Standards news** can be found by logging into the **Xchange** platform and visiting the **Daily Scan**.

Once you are registered in the Xchange portal, you will be able to view all GSMP communications within the Daily Scan.

Reporting

Monthly

- Mission Specific Work Group Scorecards

Quarterly

- Standards Maintenance Group Scorecards
- Management Report - activities, risks, project forecasting and metrics
- Executive Summary - a summary of GSMP activities for the current quarter

All reporting can be found within the GSMP website, and will also be included in the Daily Scan under Standards news.

Click [here](#) to access GSMP Scorecards

Click [here](#) to access GSMP Quarterly reports

Events

There are two events per year, one in the US and one in Europe.

- US event – **GS1 Standards Event**
 - This event is primarily for work groups to meet face to face in order to work on standards development with a few industry sessions on important hot topics. This event is primarily held in the Spring.
- European event – **GS1 Industry & Standards Event**
 - This event is much larger as it incorporates work group development and industry topics facing our community around the world. This event is primarily held in the Fall.

Why attend a GS1 Standards Event? Click [here](#) to find out.
