HUG

Standards Development - Status

21-23 March 2006
Rome

Peter Tomicki

The global language of business

Objectives

Part I – Process optimisation for healthcare

- Gather input from Healthcare Industry (HUG)

- Review and implement changes within the (GSMP) process

Part II – Forecasting model for future standards needs

- Develop framework and forecasting model

- Generate a first forecast within framework

GS1 HUG

HUG Input

- Input gathered to date has been provided and reviewed by various levels within GS1

- Questionnaire activity "on hold" and will be revisited by WG

GSMP "Under Construction"

- Previous process is being changed

- WG representation involvement continuing through process change implementation

Next steps for WG:

Review results and impact of GSMP change by HUG (Autumn 06)

GS1 HUG

Part II - Forecast

- Current focus of WG

- Breakout session input and results from Rome meeting

  - Presented during Rome meeting

  - Included in review and next steps within WG

- Draft content of framework and model

GS1 HUG

Standards Development Working Group

Participation:

- Current active HUG membership on WG = 5

- HUG input at each meeting in breakout sessions

- Multi-level GS1 commitment and involvement

- Next WG teleconference meeting planned for early April (TBA)

Budget:

- No budget for 2006

- No forecasted need for budget to date

GS1 HUG
